

# Hygiene measures

›A Breath of Summer in Lesmona‹ 2021

At: 29.06.2021

1.

## Are you feeling well?

Please only travel to ›A Breath of Summer in Lesmona‹ if you are feeling well.

2.

## Negative test result, proof of recovery or vaccination

Before gaining admission to the grounds, all visitors must provide proof that they

- have **tested** negative for Covid-19 (laboratory reports only, for example a rapid test result from a free testing station, no older than 48 hours),
- have **recovered** from Covid (as proof, please provide a positive PCR test or other nucleic acid proof dating back at least 28 days and max. six months),
- are fully **vaccinated**. Please present a vaccine certificate (2nd vaccination at least 2 weeks previously), alternatively the ›CovPass app‹ or the ›coronavirus warning app‹.

### Please note:

For visitors arriving by car, your proof of vaccination, negative test result or recovery will be checked at the car park.

All other visitors should go directly to the main entrance (ticket booth 1) and have your proof ready.

If you are unable to provide proof on arrival, you will have the possibility to take a rapid test either at the car park or main entrance.

Children up to the age of 14 are exempt from the requirement to provide proof of recovery or a negative test result.

3.

### Arriving by car

The car park is divided into two areas:

1. for visitors with proof of vaccination/negative test result/recovery and
2. for visitors unable to show proof, who must take a Covid rapid test on the spot.

We ask you to heed the instructions of the staff on site and to stay in your vehicle until proof of vaccination or recovery has been verified or a negative test has been carried out.

4.

### Collecting contact data – via app or form

In order to ensure contact tracing by the authorities, it is necessary to record the contact data of all persons present.

You can do this using the ›coronavirus warning app‹, the ›Luca app‹ or the ›Gast Bremen‹ app. The QR codes for check-in are posted at the entrance.

You can, of course, also submit your data manually by filling out the contact form. To do so, print out the pdf form and bring the completed form with you. Alternatively, forms will be available at the ticket booth.

5.

### Main entrance (ticket booth 1)

Please also wear mouth and nose protection (FFP2 or surgical mask type II and IIR in accordance with the standard) while waiting in line and keep a minimum distance of 1.5 metres (except to people in your own group).

If you have not already been checked at the car park, please approach our waiting staff or wait until they approach you.

Children up to the age of 7 are exempt from the requirement to wear a face covering.

**Admission to the grounds will be denied to anyone unable to provide proof of vaccination or recovery or a negative test result!**

6.

### **General mask-wearing requirement**

Please wear a face covering (mouth and nose protection) on the way to and at the Knoops Park event grounds (FFP2 or surgical mask type II and IIR in accordance with the standard).

You may of course remove your mask when seated and in the areas marked for smokers.

Please note that children up to the age of 7 are exempt from the requirement to wear a face covering.

Please consume food and drinks only at your seat, if possible.

### **Keep your distance**

A distance of at least 1.5 metres applies – especially in waiting areas (entrance, exit, sanitary facilities).

7.

If you are travelling in a group, you can of course disregard the distancing requirement within your own group.

### **Hand hygiene**

8.

Please disinfect your hands when entering the grounds and after coming into contact with generally accessible surfaces, especially at the entrance, information stand and sanitary facilities.

We have set up sufficient hand sanitizer dispensers for you.

### **Seating**

9.

Inside the event grounds, rows are marked out where you can take your seat. In principle, you have a free choice of where to sit here. However, please make sure that you sit at least 1.5 metres away from other guests outside your own group.

In addition, please keep the aisles clear. They serve as escape routes.

Our staff on site, who are also responsible for compliance with the hygiene rules, will be happy to assist you.

We thank you for your understanding and hope you have a wonderful concert experience with the Deutsche Kammerphilharmonie Bremen!
